

Deliver training programmes people love: *Training with Added Influence*

Our Train the Trainer course Transforms your Training

- Promoting values-led working
- Building emotional resilience
- Being interactive and engaging
- Inspiring and re-motivating delegates
- Being tailored to the organisational needs and customer group

We enable you to Influence Organisational Outcomes and Change Lives

Course developed from the book *Transform your Training*

Why do we need Training 4 Influence?

Most people believe that the aim of a training session is 'just' to share new information but we know it can achieve so much more. We believe delivering training is a privilege and an opportunity. Training 4 Influence helps us all, facilitators, delegates, service users and organisations be the best we can be.

Every training day is precious, so in a sector where case-loads are increasing, employees are burning out and every decision impacts lives, it's paramount that we upskill and positively influence outcomes at every opportunity.

Training 4 Influence is a creative solution, a methodology that can transform any training session, irrelevant of the subject, influencing organisational outcomes without costing the delegate or commissioner any more time or money than they are spending now, whilst ensuring that *each training session exceeds all expectations.**

The Train the Trainer programme

We run four intakes a year. Each applicant is selected based on their current experience level and values. Just like our methodology, we've designed the learning to be personalised, interactive, inspirational and suitable for both new and experienced trainers.

The programme is a 12-week course and covers all four steps of our methodology in detail. Each week, there are approximately six to ten learning hours; two of which are live and the rest at your convenience. We use a blended learning approach with online platforms, live training and activities. The Training 4 Influence Accreditation is awarded after a successful live assessment of your delivery.

After graduating you are invited to stay within our online community of values-led, high-quality trainers. We provide continual CPD updates, share learning, worksheets and ongoing support to continuously improve your training. You will also receive exclusive invitations and discounts to ongoing development events including our guest live sessions. Freelance trainers may also receive opportunities for shared commissions and joint-working.

Excellent training is about facilitating learning, being values-led and connecting the subject to the delegate's role.

**Already delivering training?
Assess your current delivery against our methodology at

The 12-week course includes:

- An online learning platform
- Live training sessions with Tave co-founder, Tammy
- Guest expert sessions
- Peer group of facilitators
- A personal mentor
- Five modules of learning
- Connected to both online and face-to-face training
- Access to our vibrant community

Module 1

Delivered by Experts

The winning blend of operational expertise and advanced facilitation skills. How both together maximise the opportunity for learning.

Module 2

Tailored to the Organisation

Each session is tailored to the company, customer group and team and written to exceed quality assurance expectations.

Module 3

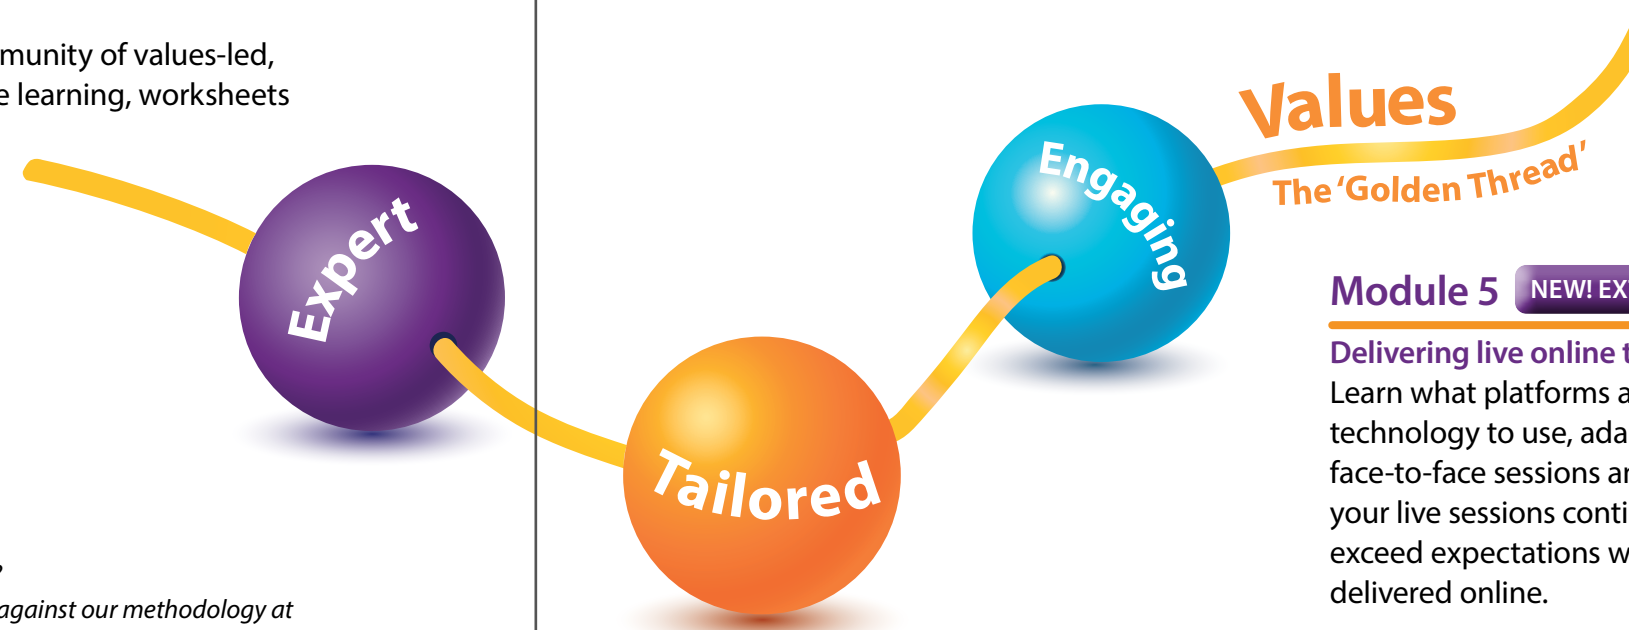

Engaging and Interactive

Meet each delegate's learning needs. We all learn differently so learning styles and accelerated learning methods are key.

Module 4

Values 'The Golden Thread'

Personal and organisational values, valuing yourself and others are the vital 'Golden Thread' that connects our method throughout.

Module 5 NEW! EXTRA MODULE

Delivering live online training

Learn what platforms and technology to use, adapt your face-to-face sessions and ensure your live sessions continue to exceed expectations when delivered online.

Tammy and Faye, founders
of Taye Training

Since 2016, Taye Training has recruited operational experts and delivered thousands of training sessions. In 2019, we analysed our sessions to find out why they received such phenomenal feedback. This process identified clear underlying principles which became the four-step Training 4 Influence methodology, which we now use for all our courses including this one.

"The way I deliver training has been completely transformed. The method is incredible!"

"I've been a freelance trainer 10 years. I love the added influence my sessions now have and being part of such a values led community is an added bonus."

"Since our internal trainers have delivered to the methodology, both the quality of their sessions and the motivation of delegates has increased."

**Want to deliver the very best training?
Ready to get feedback like this?!**

"Absolutely impressed with the delivery of the session ... I have attended many training sessions over the years and this has got to be the BEST training I have ever been on! The differentiation and thought put into the session was OUTSTANDING!"
